	Bird Watching Program at various locations.	<p>Bird Watching or Birding is a form of Wildlife Observation in which the observation of Avian species is a recreational activity or citizen science. It can be done with the naked eye. Through a visual enhancement device like binoculars and telescope. By listening bird sound, or by watching public webcams.</p> <p>Students locate nearabout 30-35 birds at various places of Ambazari Biodiversity Park. On the occasion of Birth Anniversery of Late Shri. T. S. K. Reddy sir Bird watching and Cleanliness Drive Program was organized.</p> <p>Students were very interestingly locating the birds and spotting the bird species in and around . Moreover other people joined us when they saw us birding students having binoculars and camera so that they could click photos very easily. It was enriching and amazing experience watching birds and learning about them. We will look forward to more of these birding events. All these sessions were organized by Department of Zoology, Environmental Studies and Nature Green Club.</p>
2	Outcome	<ol style="list-style-type: none"> 1. It also encourages the students to realize the importance of Avian Biodiversity and how to protect them. 2. The field trip helped the students to have practical experience. Whatever they learned in the classroom, they observed it in the field itself. 3. Bird watching takes us to places where we might have to hike or go trekking. 4. It improves mood and mental health. 5. To learn more about conservation of birds and also get expert birder looking to share their experiences. <p>Students learn more about their habitat, diet, nesting status and migration status it serves valuable resources to birders.</p>
